EXPERIENCE

01/2021 - present

Java Developer

Globant / Santiago, Chile

Assigned at LATAM Airlines, worked in the billing and accounting department. I developed, optimized, and maintained resilient RESTful API artifacts in Java 11 with Spring Boot, following an N-tier architecture. Applying unit, mutation, integration, and pact testing for each development. I also utilized my previous experience and knowledge to create monitoring dashboards in Grafana using LogQL.

Assigned to work in a cloud based solution with Data Fabric at Equifax. Each develop must have unit tests. Tools and platforms involves during the whole process were, GCP, Jenkins, SonarQube, Swagger, Git, among others. The entire flow included, cleaning, validation, standardization, persistence and presentation of the input data. Developed in java 8 and 11.

12/2019 - 12/2020

Software Engineer

23 People / Santiago, Chile

Experience working for Equifax US, migrating legacy Java apps into GCP as well as development of new micro services, both using Spring framework and PostgreSQL database. Dockerize apps, testing and certified them with tools such as SonarQube, Fortify, JUnit, among others. All the CI/CD process were handled it with platforms such as Jenkins, GitHub, Bitbucket and Nexus and different plugins related.

12/2018 - 12/2019

Java Junior Developer

Advise / Santiago, Chile

Full Stack web development for Equifax through Advise S.A contractor. Worked under Scrum methodology for UK clients such as banking and telecommunication projects using Java EE 1.6 to 1.8 and Oracle database. REST API with Spring framework. Worked using Eclipse, IntelliJ, SQL Developer, Maven, Git, Vault, BitBucket, Jenkins, GoCD, and Fortify. Each develop include testing, coded in Java or Scala using: Gauge and Selenium.

PROFILE

Started my career as a network technician, programming routers, switches and platforms for communication systems. Then I studied software development, where I've been working for the last three years; developing testing and migrating Java apps into cloud platforms. Currently seeking to build my career as a software developer with any kind of language required and learn all about cloud solutions and technologies.

SKILLS

Language	Frameworks	Testing	db
JAVA 8-11	Spring	Selenium	MySQL
	Hibernate	Mockito	Oracle
	JSF	JUnit	PostgreSQL
C#			SQL Server

TOOLS & TECHNOLOGIES

IDE	IntelliJ	Eclipse	Unity
Editors	VS Code	Notepad++	Atom
Platforms	GCP	AWS	
	Docker	Maven	Git
Others	Grafana	Postman	Bash
	Github	Bitbucket	Jira

LANGUAGES

Spanish: Native
English: Advanced

EDUCATION

03/2012 - 08/2014

Analyst Programmer

Duoc UC / Santiago, Chile

03/2009 - 08/2011

Telecommunication Technician

Duoc UC / Santiago, Chile
